Individual Membership Application

The Ohio Health Care Association and Ohio Centers for Assisted Living provide information and services to more than 800 long-term care facilities in Ohio. Through OHCA, members are provided updates on activities and changes within the profession helping them devote their full time to the care of residents and operation of the facility.

The Association also offers an individual membership for licensed administrators who are not employed by a long-term care facility or company eligible for associate membership. Faculty members from institutions of higher learning are also eligible to be individual members.

OHCA's Individual Membership Program is designed for three purposes:

1. To provide those interested in long-term care with current information on laws, regulations and issues affecting the profession and the general health care field.
2. To aid administrators in becoming part of the long-term care network by providing contact with other health care professionals and broader access to other resources.
3. To ensure that professionals entering the long-term care field have an understanding of the most current issues and trends.

Individual Members of OHCA receive all the benefits of membership. Dues are \$125. annually, or until employed by a facility or company eligible for regular or associate membership.
